

Artemas Wash 60 E Plus

A universal press wash for blanket and ink rollers with improved cutting power.

- A new improved formulation of roller and blanket wash that incorporates a unique emulsifier and solvent blend to provide vastly superior ink solvency
- Fogra and Baldwin approved
- Aliphatic hydrocarbon based
- Corrosion inhibited; conforms to warranty requirements
- Dearomatised; minimised possibility of skin and eye irritation; low odour, optimum roller and blanket life
- Designed for use with automatic wash-up devices
- Flash point of >60 degrees celcius; low hazard rating; improved safety in use and storage
- Plate-safe; completely safe for use with unbaked analogue and digital plates
- Suitable for universal application; washes rubber rollers, blankets, dampers and metal surfaces
- Available in 20, 200, 1000 litre containers
